PHONG CHUC VO

+84 867 676 587 | phongchucvo@gmail.com
Phan Thiet, Lam Dong - 77117, Vietnam

Education

- **University of Science, VNUHCM** *Sep 2023 – Jul 2027*
  Bachelor of Science in Physics (Honors Program) Ho Chi Minh , Vietnam
  - GPA: 8.82/10 (3.81/4.0)
  - Specialization: Theoretical Physics
  - Thesis Title: To be determined

Academic Experience

- **QuantumLab - Supervisor: Dr. Lan Nguyen Tran [🌐]** *Sep 2025 - Present*
  Research Assistant Ho Chi Minh City, Vietnam
  - Investigating singlet–triplet inversion phenomena in excited molecular states.
  - Developing the **restricted open-shell one-body MP2 (RO-OBMP2)** method for excited-state calculations.
  - Performing electronic structure simulations and analysis of excitation energies.

Projects

- **Translation Project: Physics: A General Course (Vol. 2, I. V. Savelyev)** *Sep 2024 - Aug 2025*
  Translator | xPhO Physics Club [🐙]
  - Translated *Chapter 7: Magnetic field in a Substance* and *Chapter 18: Diffraction of Light* from Russian into Vietnamese as part of the Savelyev project.

Training & Activities

- **International Symposium on Recent Advances in Quantum Science and Technology** *Mar 23, 2026*
  Organizer | Organized by Department of Theoretical Physics, University of Science, VNUHCM [🌐]
  - The International Symposium on Recent Advances in Quantum Science and Technology 2026, hosted by VNUHCM-US, convenes prominent researchers to examine the pivotal challenges and opportunities characterizing the second quantum revolution.

Skills

- **Programming Languages:** Python, MATLAB
- **Scientific Computing:** NumPy, SciPy, Matplotlib

Honors and Awards

- **Third Prize, BigBang Academic Competition** *May 2024*
  Organized by Faculty of Physics and Engineering Physics, University of Science, VNUHCM

Additional Information

Languages:

- English: B2
- Chinese: HSK 4

Research Interests

- Many-body physics
- Electronic structure and excited-state methods
- Condensed Matter Physics
